Ordering Information

Monitoring, Analysis and T	roubleshooting Suites
Model Number/Name	Description
OPVS3-GIG/OMS/MS-ADV	Advanced OMS Suite: An essential suite for network and application monitoring, analysis and troubleshooting. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPVS3-WGA/GIG/SP – OptiView Management Appliance, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 OptiView devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent and Application Troubleshooting Expert Active Tests
OPVS3-GIG/OMS/MS-PRO	Professional OMS Suite : An essential suite for network and application monitoring, analysis and troubleshooting plus end user experience monitoring and analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPVS3-WGA/GIG/SP – OptiView Management Appliance, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer and APPAD-TC-10 – NetAlly Application Advisor Test Center with 10 Agents.
OPVS3-GIG/OMS/MS-EXPT	Expert OMS Suite : The complete suite for network and application monitoring, analysis and troubleshooting. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, three OPVS3-WGA/GIG/SP – OptiView Management Appliance (3 appliances), OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 ClearSight Analyzer Software and CSN/OPT-3045 - IP Multicast/History Reporter/Packet Generator Option for ClearSight Analyzer, APPAD-TC-10 – NetAlly Application Advisor Test Center with 10 Agents and OPV-TRKR-10 – OptiView NetFlow Tracker (10 Device).
Monitoring and Analysis S	uites
Model Number/Name	Description
OPVS3-GIG/OMS/MA-ADV	Advanced Monitoring and Analysis Suite: A dedicated appliance pack for monitoring and analysis at core and remote sites. It includes three OPVS3-WGA/GIG/SP – OptiView Management Appliance (3 appliances) and OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices.
OPVS3-GIG/OMS/MA-EXPT	Expert Monitoring and Analysis Suite : A dedicated appliance pack for monitoring and analysis at core and remote sites with "on the wire" application-centric protocol analysis. It includes three OPVS3-WGA/GIG/SP – OptiView Management Appliance (3 appliances), OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, CSN/CSA-1000 – ClearSight Analyzer Software and CSN/OPT-3045 – IP Multicast/History Reporter/Packet Generator Option for ClearSight Analyzer.
Analysis and Troubleshooti	ng Suites
Model Number/Name	Description
OPVS3-GIG/OMS/AT-ADV	Advanced Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent and
	Application Troubleshooting Expert Active Tests.
OPVS3-GIG/OMS/AT-PRO	Application Troubleshooting Expert Active Tests. Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer.
OPVS3-GIG/OMS/AT-PRO OPVS3-GIG/OMS/AT-EXPT	Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR –
	Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer. Expert Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet and "on the wire" application protocol analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WLA – OptiView Wireless Infrastructure Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 – ClearSight Analyzer Software and
OPVS3-GIG/OMS/AT-EXPT	Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer. Expert Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet and "on the wire" application protocol analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WLA – OptiView Wireless Infrastructure Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 – ClearSight Analyzer Software and
OPVS3-GIG/OMS/AT-EXPT Support	 Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer. Expert Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet and "on the wire" application protocol analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 – ClearSight Analyzer Software and CSN/OPT-3045 – IP Multicast/History Reporter/Packet Generator Option for ClearSight Analyzer.
OPVS3-GIG/OMS/AT-EXPT Support Model Number/Name	Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer. Expert Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet and "on the wire" application protocol analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WLA – OptiView Wireless Infrastructure Analyzis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 – ClearSight Analyzer Software and CSN/OPT-3045 – IP Multicast/History Reporter/Packet Generator Option for ClearSight Analyzer.
OPVS3-GIG/OMS/AT-EXPT Support Model Number/Name GLD-OPV/OMS/MA-ADV	Professional Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLIA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer and ANALYZEAIR – WiFi Spectrum Analyzer. Expert Portable Analysis and Troubleshooting Suite: A portable network analysis and troubleshooting bundle for wired and wireless Ethernet and "on the wire" application protocol analysis. It includes OPVS3-GIG – OptiView Series III Portable Network Analyzer, OPV-RPTR/PRO – OptiView Reporter Pro monitoring software for 40 devices, OPVS3-WLA – OptiView Wireless Infrastructure Analysis Option, NetAlly Agent, Application Troubleshooting Expert Active Tests, OPVS3-WFA – OptiView AirMagnet WiFi Analyzer, ANALYZEAIR – WiFi Spectrum Analyzer, CSN/CSA-1000 – ClearSight Analyzer Software and CSN/OPT-3045 – IP Multicast/History Reporter/Packet Generator Option for ClearSight Analyzer. Description Gold Support Services, Advanced Monitoring and Analysis Suite
