

# Fluke Service Programs

The most comprehensive service plans available

## Fluke Gold CarePlan

The Gold CarePlan is a comprehensive instrument calibration and repair support plan that minimizes your downtime and protects your investment in your Fluke tools. It's the "good as gold" priority customer service program that gives you all these extra privileges:

- Annual NIST traceable calibration with data with three-day-in-house turn around<sup>1,2</sup>
- Free repairs with guaranteed five-day in-house repair (includes calibration)<sup>2</sup>
- Pre-paid, priority freight on return of instrument
- Telephone help line or web support for member assistance
- Automatic notification of when calibration is due
- Covers calibration and repair for the entire product warranty period plus an additional two years

## Fluke Silver CarePlan

The Silver CarePlan is a comprehensive instrument warranty support plan that puts you in charge of your operating costs and protects your investment in your new Fluke tool.

- Extended warranty coverage for your instrument
- Calibration included on repairs covered by your plan
- Extends the product warranty period by an additional two years

1. Three-day in-house turnaround not available in all countries; contact your local Fluke representative for details. Priority shipping times vary by country.

2. Instruments showing signs of failure due to physical abuse, improper operation or application do not qualify for free repair and will be repaired at 15% discount from standard repair rates.
