

PRX-4 PROXIMITY VOLTAGE DETECTOR

The PRX-4 Proximity Voltage Detector provides utility professionals, arborists and first responders with a safety tool that will alert them to potentially dangerous high voltage in their work areas. The PRX-4 is a non contact detector with two voltage ranges:

- 50V – 4kV, 3" (8cm) detection range
- 4kV – UP, 10" (25cm) detection range

The PRX-4 utilizes a rugged, durable, water resistant housing with dual hotstick connections - universal spline and shotgun stick. All of this is achieved while weighing less than 1 pound (.45kg).

FEATURES

- Sealed to resist water penetration in typical outdoor environments
- Two voltage ranges from 50V to 4kV and above 4kV
- Detects 50V at 3" (8cm) at the 50V setting and 4kV at 10" (25cm) at the 4kV setting
- Higher voltages result in greater detection distances
- Rechargeable battery with quick recharge - 15 minutes for a full day of use
- Heartbeat signal assures that the PRX is ready to detect voltage
- Rugged, durable housing
- Dual hotstick connections - universal spline & shotgun stick
- Loud beeper and LED lights indicate voltage
- Weighs less than 1 pound (0.45 kg)
- Easy to use electronic touch pad with large buttons
- Can be used on 50Hz and 60Hz systems
