

What's NEW!

Our new benchtop meters are designed for today's crowded and very demanding laboratories

700-series meters offer...

New

- Space-saving footprint
- Oversized liquid crystal display
- Electrode holder can be mounted to either side
- Splashproof, easy-to-operate keypad
- Nonskid footpads
- Automatic temperature compensation
- Auto buffer recognition
- Electrode diagnostics
- Convenient pull-out quick-reference card

Electrode holder can be mounted to either side

2700-series meters add....

- Oversized graphic display with bright backlight
- Dynamic stability indication tells you when your reading is stable
- 500 data set memory with time/date stamping, RS-232 output, and software
- Up to 6-point calibrations with USA, NIST, DIN, and custom buffer sets
- Calibration reporting and calibration due alarm
- Out-of-range alarms
- Password protection
